

## National Diabetes Services Scheme – Country Sub Agents

### Diabetes WA administers the National Diabetes Service Scheme (NDSS) in Western Australia

The NDSS is an initiative of the Australian Government which provides access to a range of approved diabetes related products at a subsidized prices. Products include syringes, needles for special injections systems, and blood and urine testing strips.

If you have diabetes, live in Australia and hold, or are eligible to hold, a Medicare card, you are entitled to register for the NDSS.

Registration is free – all you need to do is complete a NDSS Registration Form, have it signed by a medical practitioner or Credentialed Diabetes Educator, and return it to us here at Diabetes WA by mail or in person.

You can download a copy of the NDSS Registration Form from our website at [www.diabeteswa.com.au](http://www.diabeteswa.com.au), or call us 1300 136 588 for more information.
