

My Health Record Workshops for Allied Health Professionals

All Australians will have a digital My Health Record by the end of 2018 unless they choose not to have one. My Health Record will support timely access to important health information by both patients and their treating healthcare providers, and improve patient health outcomes.

WA Primary Health Alliance is running a free educational workshop that will look at the My Health Record system from the perspective of **private practice** based:

- Occupational Therapists
- Physiotherapists
- Podiatrists
- Psychologists
- Dietitians
- Speech Therapists
- Social Workers

Topics covered in the workshop are:

- general overview, features and benefits of My Health Record
- the role of the Allied Health professional in contributing clinical information
- accessing My Health Record via the provider portal

The session will include a thirty minute Q & A component and light refreshments will be provided.
