

Diabetes Upskilling for Country WA Health Professionals July to December 2019 Calendar

Diabetes Telehealth helps build diabetes management capacity in country WA by providing regular updates for health professionals through the channel of telehealth.

Join us for free professional development, in the comfort of your own workplace or home*.

These sessions will be recorded. Please register for the event/s you are interested in - this is how you will receive the link to join the upskilling event and the link to watch the recorded session.

*Conditions can apply, like bandwidth limitations or restricted technical support outside office hours.
