

Diabetes Group Education Services Referral Form – Regional

Whether you have clients that are at risk, have just been diagnosed, or have had diabetes for many years, we have a program that can help them on their health journey. All FREE, person-centred, evidence-based and outside the Medicare Benefits Schedule, funded by the NDSS.

DESMOND – Diabetes Education and Self-Management for Ongoing and Newly Diagnosed
– one-day self-management workshop for people newly diagnosed or living with type 2 diabetes.

SMART programs – CarbSmart, FootSmart, MedSmart, MeterSmart, ShopSmart – topic-specific two-hour group education workshops, mostly suitable for both type 1 and type 2, dependant on the SMART.

How do these programs complement the GP Management Plan and Team Care Arrangement?

Attending a Diabetes WA Group Education program does not impact on the five allied health visits allocated to the person with diabetes. In fact, the programs have the potential to increase the effectiveness of these allied health visits by activating patients to self-manage their diabetes and create their own care plan.

To refer patients/clients, please complete the details below and return to Diabetes WA by:

1. Fax to: (08) 9475 0485, or
2. Post to: PO Box 726, Belmont WA 6984, or
3. Scan and email to: bookings@diabeteswa.com.au
